WASP & HORNET SPRAY (WHA) Instant Freeze Action Aerosol

ACE WASP AND HORNET SPRAY (WHA) is a 100% solvent-based, EPA Registered, Tetramethrin aerosol insecticide with a unique propellant and aerosol valve system that delivers a super powerful 20-foot fogging stream.

The unique propellant and valve system allows the product to be sprayed at the same pressure throughout the life of the can.

FEATURES & BENEFITS

- Super high pressure - projects, non-flammable 20-foot spray.
- Consistent spray - sprays at same pressure throughout life of can.
- Instant freeze action - provides quick knockdown.
- Safe to use - High dielectric strength (25,000 volts).
- Effective - treats entire nest in one application.

DIRECTIONS for USE: With wind at back, spray nest will moving away from treated area. Thoroughly saturate nest, contacting as many insects as possible. Do not stand directly under nest. For best results, spray nests in evening. If used indoors, allow spray to dissipate before re-occupying area.

SAFETY: If swallowed, do NOT induce vomiting. Seek IMMEDIATE medical help. For skin/eye contact, flush with clean water. If irritation persists, seek IMMEDIATE medical help. If inhaled, remove to fresh air.

CAUTION: Harmful if swallowed. Do not breathe vapors. Do not use near food or pets. Toxic to fish. **KEEP OUT OF THE REACH OF CHILDREN.**

PHYSICAL PROPERTIES

APPEARANCE	Oily Liquid
COLOR	Transparent
FLASH POINT	~100°F
PROPELLANT	1,1,1,2-Tetrafluorethane
SPECIFIC GRAVITY	0.826
PACKAGING	12x20-oz (14oz net)/case
