

ALUM-BRITE (ABC)

Aluminum Wheel Cleaner

ACE ALUM-BRITE (ABC) is a ready-to-use hydrofluoric acid based aluminum cleaner & brightener designed for use to restore aluminum and chrome surfaces to like new condition. **ACE ALUM-BRITE (ABC)** is formulated to clean and brighten aluminum and chrome mag and wire wheels without the need for scrubbing or polishing. Can also be used to clean and brighten aluminum trucks and tanks, etc. **ALWAYS TEST SURFACE BEFORE USE.**

FEATURES & BENEFITS

- Ready-to-use formula ... no mixing required.
- Acid formula ... restores aluminum surfaces to "like-new" condition.

DIRECTIONS for USE: Apply by spray bottle directly on to the surface to be cleaned. Leave on contact with surface for one to three minutes subject to conditions. Rinse off with clean water.

SAFETY: In the event of skin contact, **IMMEDIATELY** flush area with soap and water for at least 15 minutes. Skin contact may not result in immediate pain or visible signs of skin contact. If skin is not flushed immediately with soap and water, neutralize the acid with a 2.5% solution of calcium gluconate. Apply the solution to the skin surface and gently massage for 20 minutes. Seek **IMMEDIATE** medical attention. For eye contact, flush eyes with clean water for at least 15 minutes. Seek **IMMEDIATE** medical attention from an eye specialist.

CAUTION: Contains Hydrofluoric Acid. Gloves and goggles recommended. This product is designed for **PROFESSIONAL USE ONLY**. The product is not recommended for use in windy conditions. Do not spray into the wind. Hydrofluoric Acid cleaners can cause severe bodily injury or damage to valuable equipment if not handled with extreme caution. Professional individuals who have been trained in the product's safe handling must only use the product. **KEEP OUT OF THE REACH OF CHILDREN.**

PHYSICAL PROPERTIES

APPEARANCE	Clear Liquid
COLOR	Red
pH	1.00-2.00
SPECIFIC GRAVITY	1.05
PACKAGING	12x32oz bottles per case 4x1 gallon bottles per case
