APFK

### POWER FLUSH KIT (APFK)

- Refillable injection tank saves money & time
- Power Flush is non-flammable & zero ozone depletion
- Cleans as well or better than R-11
- Eliminates need for access fittings/valves or manifold gauges while flushing
- Use with inexpensive dry nitrogen propellant
- Refill cans do not contain costly R-134A propellants; they are 100% POWER FLUSH solvent
- Dosage rate is 2-3 ounces per ton
- Instructions included

### REFILL WITH

APF16  
Flushes Up To  
7 Tons Capacity
